

› Calls & Lines

If you have existing lines with BT why not transfer them to Connected World and save at least 10% on your monthly line rental, as well as making great savings on the cost of your calls.

Whether you're a sole trader running your business from home, or a multi-national company with thousands of employees, we can help you save money on your business telephone line rental and call charges by switching to our cheaper business tariffs.

Transferring your calls & lines is easy, there's no disruption to your service and it is completely free. We can also transfer lines away from all other leading telecoms providers.

All business customers receive a 10% discount on BT's standard business line rental, Select Services and Network Feature charges once their line has been successfully transferred to us. In order to ensure continuity of service, all Select Services and Network Features are transferred to us on a 'like-for-like' basis.

Although your line rental is billed by us, lines continue to be maintained by Openreach, the network division of BT, so you'll benefit from exactly the same technical skill & service support.

To discover more about this service please see the online video presentation.

Connected World is a Talk Talk Enterprise business, and offers a one-stop-shop service to our clients for all their communication needs. We provide tailor-made business telecom solutions that are both dynamic and cost effective. We offer a full and comprehensive list of communication services that deliver real tangible results, both financially and operationally.

Based in Warrington, Cheshire, Connected World is an independent company without network tie-in or obligations, allowing us to partner with all key network service operators to offer our customers the best products & services available. We pride ourselves on our ability to fulfill our customers individual needs with tailored solutions from a wide-ranging product portfolio.

Click on the play icon next to each service to see a video presentation of what we do.

Products & Services

Inbound NGN's & Services

We can provide a range of virtual, non-geographic telephone numbers not just from the UK, but from countries all around the world. We also provide a wide range of network-based call features which provide phone-system like functionality allowing you to manage incoming calls most effectively.

Calls & Lines

If you have existing lines with BT why not transfer them to Connected World and save at least 10% on your monthly line rental, as well as making great savings on the cost of your calls. Transferring your calls & lines is easy, there's no disruption to your service and it is completely free. We can also transfer lines away from all other leading telecoms providers.

Broadband & Data Connectivity

From simple broadband internet access or dedicated high capacity Ethernet, to leased lines and private MPLS networks, we can connect your businesses to you applications and the internet, with a suite of tailored options to suit every need.

Business Mobiles

We partner with all 5 UK mobile operators, and can facilitate new connections, upgrades, ports and migrations to each network. We provide an independent review and advice to suit your business requirements, covering the best value tariffs and incentive offers, network performance, handsets and devices, and mobile email and broadband.

Phone Systems

Hardware or IP hosted phone systems, which would suit you best? We provide independent consultation and advice and offer a range of solutions to meet every need.
