

 **Business Mobiles**

**With so many business mobile tariffs, network incentives and ever-changing technology, how do you know what is best for your business?**

At Connected World, we provide bespoke mobile voice and data solutions to UK organisations of all sizes. We provide connectivity to all 5 UK mobile networks, and offer truly impartial help & advice on the best value tariffs and incentives, network performance, as well as guidance on devices and handsets.

Our in-depth industry knowledge combined with exceptional customer service allows us to find the best value options to suit your budget. We take time to understand your mobile requirements, and develop tailor-made solutions to fit.

**What's next?**

A fact-finding discussion will allow us to understand what you need. We will offer choices that reflect your needs, and we will manage everything for you end-to-end, all done under one roof.

To discover more about this service please see the online video presentation.

Connected World is a Talk Talk Enterprise business, and offers a one-stop-shop service to our clients for all their communication needs. We provide tailor-made business telecom solutions that are both dynamic and cost effective. We offer a full and comprehensive list of communication services that deliver real tangible results, both financially and operationally.

Based in Warrington, Cheshire, Connected World is an independent company without network tie-in or obligations, allowing us to partner with all key network service operators to offer our customers the best products & services available. We pride ourselves on our ability to fulfill our customers individual needs with tailored solutions from a wide-ranging product portfolio.

## Products & Services

### Inbound NGN's & Services

We can provide a range of virtual, non-geographic telephone numbers not just from the UK, but from countries all around the world. We also provide a wide range of network-based call features which provide phone-system like functionality allowing you to manage incoming calls most effectively.

### Calls & Lines

If you have existing lines with BT why not transfer them to Connected World and save at least 10% on your monthly line rental, as well as making great savings on the cost of your calls. Transferring your calls & lines is easy, there's no disruption to your service and it is completely free. We can also transfer lines away from all other leading telecoms providers.

### Broadband & Data Connectivity

From simple broadband internet access or dedicated high capacity Ethernet, to leased lines and private MPLS networks, we can connect your businesses to you applications and the internet, with a suite of tailored options to suit every need.

### Business Mobiles

We partner with all 5 UK mobile operators, and can facilitate new connections, upgrades, ports and migrations to each network. We provide an independent review and advice to suit your business requirements, covering the best value tariffs and incentive offers, network performance, handsets and devices, and mobile email and broadband.

### Phone Systems

Hardware or IP hosted phone systems, which would suit you best? We provide independent consultation and advice and offer a range of solutions to meet every need.
